Dear Mr. Commissioner,

I would like to thank you cordially for your kind letter of 15 May 2018 in reply to my open letter of 9 March 2018 which I addressed to you concerning the Natura 2000 site PLC200004 Białowieża Forest. I have placed both your letter and my letter addressed to you on the website of the Association for Sustainable Development of Poland (www.ekorozwoj.pl), informing of this all the available mass media, as well as all the Members of the Polish Parliament and the European Parliament. My reply to your letter will be sent to you soon and I hope that this will be the beginning of a substantive debate on the correct implementation of Natura 2000 in a uniting Europe.

Respectfully yours
